

With its extensive over-view of goods, services and technology used in heritage preservation as well as high-level seminars and conferences, HPI is an ideal opportunity to disseminate new technology and knowledge. In this framework, **ICVBC-CNR and El.En** have organized a Workshop on

**Application and Development of Laser Cleaning Technology for the Conservation and Restoration of Cultural Heritage**

Heritage Preservation International, China  
International Exhibition for Restoration, Conversation  
and Museum Technology  
10th – 12th August 2017 | [www.heritage-china.com](http://www.heritage-china.com)
